Belarusian-Russian University is one of the leading higher education establishments of the east region of the Republic of Belarus. It has been training highly qualified specialists **in technical and economic fields** for more than 50 years. The graduates work in different spheres both in Belarus and abroad.

Today Belarusian-Russian University is a unique educational establishment in the Republic of Belarus. It gives an opportunity for studying in Belarusian and Russian educational standards and a student is given **a diploma of higher education of state standards of the Republic of Belarus and Russian Federation.**

Foreign citizens have been studying at the University since 1985. Citizens from 36 countries of the world graduated higher education. At present the citizens of Turkmenistan, China, Syria, Iran, Iraq, Saudi Arabia, Georgia, Russia, Vietnam, the Ukraine, and Uzbekistan get a diploma of the Belarusian-Russian University.

There is an opportunity to study at educational programs of the Republic of Belarus and Russian Federation for foreign students to have full-time and part-time tuition. All conditions for a successful studying of highly qualified specialists for foreign countries are created at the University.

Person to contact: Roman Pliakin – the Head of the International Department

The Belarusian-Russian University offers the foreign citizens the following educational services:

– studying at the preparatory department to learn Russian and to prepare for the entrance on the basic courses on a technical or economic section. The studied disciplines are the Russian language, Maths, IT, adaptation to training, Economics and Natural Sciences (for economic faculty); Physics and Chemistry (for technical faculty). The period of education is 1 year. The fee is \$1300 per year.

– studying at technical and economic faculties of the University at a full-time department or a part-time department (if a foreign citizen has a previous education at the level of comprehension school – not less than 10 classes). After the graduation a student gets a diploma of higher education of the state international standard. The period of education is 4-5 years (part-time department -5-6 years). The fee of full-time department is \$2200 per year and the fee of part-time department is \$1300 per year.

– Master's Degree Programme for technical or economic faculty (for those who has a higher education at the bachelor or expert level). The period of education is from 1 to 2 years. The cost of education is \$2500 per year depending on the speciality.

– studying at postgraduate course at full-time department or a part-time department (for those who has Master degree). The period of education is 3 years for a full-time department and 4 years for a part-time department.

– Russian language courses and individual training in Russian (any level of education). The period of education is defined individually. The cost depends on the number of students in a group (till 5 persons).

Deadline for documents:

- preparatory department: May – September*;
- higher education: May – September*;
- Master's Degree Programme: May – September;
- postgraduate study: within a year;
- Russian language courses: within a year.

*- The term can be extended by the decision of the Ministry of Education of the Republic of Belarus.

Admission Procedure at the Belarusian-Russian University

1 An applicant sends the following documents to the international department (interstudy@bru.by, tel./fax +375-222-25-28-30):

- the completed form (you can find it on the website bru.by in the section of the applicant/for foreigners);
- the copy of the passport;
- the copy of the documents: the certificates of education with academic transcripts of records.

2 *According to the results of preselection an Invitation Letter is sent to applicants (the term of registration and coordination of invitations for citizens of Turkmenistan - within 10 days). The coordinated invitation letter is sent to the Belarusian Embassy of the native applicant country. The following items are included:*

- correspondence of educational level to the chosen study program;
- the general progress in studies;
- the level of proficiency in a Russian language.

3 An applicant applies to the Belarusian Embassy's consular service in his country for receiving visa;

4 Applicant's arrival and submission of documents to the Belarusian-Russian University. After his arrival to the city of Mogilev an applicant is obliged to come to the international department of the University immediately (43, Prospekt Mira, office 346 (block 1)) to register a temporary residence (not later than 2 days from the moment of the entry into a country). The applicant should have the following documents:

- the passport with a study visa;
- the birth certificate;
- the original of the certificate of education with academic transcripts of records (subjects/scores);
- medical certificate about the state of health and HIV medical certificate given out by the official body of health care of the country (from which the candidate came to study);
- 8 photos 3x4.

The Russian translation of the mentioned documents certified notarially should be attached to the original versions.

5 In order to get a room in the hostel a student should address to the international department (11, Kosmonavtov street).

6 Interviews in Russian, Maths and Physics (for technical specialities) are held. The applicants with the average grade of certificate more than 4.5 are released from Maths and Physics.

7 In case of passing interview and the obligatory medical check-up, the applicant is accepted as a student of the University. If the applicant fails the interview, he or she can be accepted as a listener of the preparatory department.
